

## From the CEO's Desk

As we sail into the second half of 2025, I am filled with pride at how far we have come—and where we are headed together. This year has brought not only growth but also a deeper sense of purpose. In every shipment, in every sustainable solution we have delivered, and in every relationship that we have nurtured, our mission has remained clear: to be a trusted bridge between marine innovation and environmental responsibility.

July reminds us that resilience is forged not just in calm seas, but through the brine of real challenges. We have expanded our partnerships, optimized our operations, and doubled down on delivering sustainable marine solutions without compromise.

Looking ahead, we are investing more in smart technologies, sustainable sourcing, and empowering our team to lead with integrity. Whether you are on deck, onshore, or online—we are here for the long haul, with clarity in vision and confidence in purpose.

Thank you for your trust in Ocean & Brine. Let us keep navigating forward—together.

**Raj Kumar S**

Founder, Ocean&Brine

## Top Selling Products

The top-selling products of May 2025 are:

- Sperre Air Compressor, XA150
- Tanabe Compressor H264
- Taiko Kikai Pumps
- Mitsubishi Kakoki Kaisha SJ purifiers
- Boll & Kirch Filters
- Man B&W Engine parts - OEM Quality.

# Frequently asked questions about Marine Spares

## What industries does Ocean & Brine serve?

Our primary focus is the marine and shipping industry, but we also support offshore, oil & gas, and industrial applications.

## Does Ocean & Brine provide installation or technical support?

While we mainly focus on supply, we do provide technical consultation and can connect you with service experts if needed.

## Blogs of the Month

In the world of maritime operations, every minute counts—and so does every part. Delivering marine spare parts worldwide is not just logistics but a commitment to keeping vessels moving and downtime minimal. We have collated information for you on delivering marine spare parts worldwide and another very important topic - the role of marine hydraulic pumps and motors. Hope you enjoy reading the two blogs.

Marine spare parts logistics is not a task but a mission-critical operation that supports the very heartbeat of global trade. Partnering with a responsive, well-connected, and knowledgeable marine spares supplier can significantly reduce risks, cut costs, and keep fleets moving—no matter where the sea takes them. ---

In the world of maritime operations, efficiency is not just a goal, it is a necessity. At the heart of this drive for efficiency are marine hydraulic motors and pumps that are the silent workhorses powering critical onboard systems. Read [Maximizing Efficiency: The Role of Marine Hydraulic Motors & Pumps in Modern Vessels](#) to get an insight into the world of hydraulic motors and pumps.
